MANUALE TECNICO / *TECHNICAL MANUAL*

Sistema di sblocco magnetico
per porte a doppia anta

*Magnetic release system
for double doors*

MANUALE TECNICO

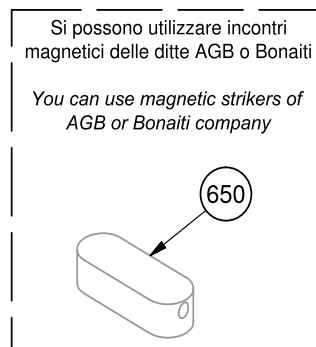

INDICE

Esploso ferramenta	pag. 17
Utilizzo del sistema Push&Go EVO	pag. 18-19
Panoramica delle lavorazioni per l'anta	pag. 20
Sede superiore per blocco scrocco	pag. 21
Sede laterale per pulsante	pag. 22
Specifiche per ante massello o senza predisposizione	pag. 23
Montaggio blocco scrocco	pag. 24
Montaggio pulsante	pag. 25
Specifiche piastra incontro magnetica	pag. 26

ESPLOSO KIT PUSH&GO EVO
EXPLODED VIEW KIT PUSH&GO EVO

Rif.	Q.tà	Elenco parti	Parts list
600	1	Blocco Scrocco Push&Go	Push&Go Spring Latch Lock
610	1	Pulsante Push&Go	Push&Go Button
620	1	Frontalino	Front plate
630	6	Viti per legno TSP+ Ø3x25	For wood screws TSP+ Ø3x25
640	1	Chiave esagonale da 2 mm	2 mm hexagonal wrench
650	1	Incontro magnetico AGB o Bonaiti (optional)	AGB or Bonaiti magnetic striker (optional)

IL SISTEMA PUÒ ESSERE APPLICATO A DIVERSI TIPI DI APERTURA.
THE PUSH&GO EVO SYSTEM CAN BE USED IN DIFFERENT TYPES OF OPENINGS.

ALCUNI ESEMPI A FEW EXAMPLES

Porte battenti e con sistema Compack Living
Swing door and with the Compack Living system

ANTA PRINCIPALE CON SISTEMA ERGON LIVING, ANTINA SECONDARIA BATTENTE.
MAIN DOOR WITH ERGON LIVING SYSTEM, SECONDARY DOOR LEAF.

DUE ANTE CON SISTEMA ERGON LIVING.
TWO DOOR LEAVES WITH ERGON LIVING SYSTEM.

PANORAMICA DELLE LAVORAZIONI PER L'ANTA
OVERVIEW OF OPERATIONS FOR THE DOOR

* per misure superiori chiedere la fattibilità a Celegon
for larger sizes, ask Celegon about the feasibility

Rif.	Q.tà	Elenco parti	Parts list
600	1	Blocco Scrocco Push&Go	Push&Go Spring Latch Lock
610	1	Pulsante Push&Go	Push&Go Button
620	1	Frontalino	Front plate

Si possono prevedere il cavetto e lo scrocco magnetico in due posizione diverse in base alle esigenze.
Cable and magnetic latch can be provided in two different position according to the needs.

- * Nel caso di un'anta senza battuta il sistema può essere posizionato al centro dello spessore dell'anta.
- * In the case of a door without abutment the system may be positioned at the centre of the thickness of the door.

Technical drawing of a mechanical part (Fig. 1.10) showing a cross-section with dimensions and features. The part is symmetrical about a vertical dashed centerline. Key dimensions and features include:

- Overall Width:** 65 mm.
- Top Section:** A central slot with a width of 15 mm (labeled "15 min.") and a depth of 10 mm. The slot is flanked by two 6 mm wide sections. The top surface has a fillet with a radius of R3.
- Middle Section:** A central slot with a width of 22 mm and a depth of 32 mm. The slot is flanked by two 6 mm wide sections. The top surface has a fillet with a radius of R5.
- Bottom Section:** A central slot with a width of 22 mm and a depth of 23 mm. The slot is flanked by two 6 mm wide sections. The bottom surface has a fillet with a radius of R5.
- Other Dimensions:** The total height of the part is 61 mm. The distance from the top surface to the middle section is 10 mm. The distance from the middle section to the bottom section is 23 mm. The distance from the bottom section to the base is 2 mm.
- Labels:** E, F, and G indicate specific points or features on the part.

Sez. F-F

Sez. G-G

- * Nel caso di un'anta senza battuta il sistema può essere posizionato al centro dello spessore dell'anta.
- * *In the case of a door without abutment the system may be positioned at the centre of the thickness of the door.*

SPECIFICHE PER ANTE IN MASSELLO O SENZA PREDISPOSIZIONE
SPECIFICATIONS FOR SOLID WOOD DOORS OR THOSE WITHOUT PREPARATION

- * Nel caso di un'anta senza battuta il sistema può essere posizionato al centro dello spessore dell'anta.
- * In the case of a door without abutment the system may be positioned at the centre of the thickness of the door.

MONTAGGIO BLOCCO SCROCCO ASSEMBLY OF HOUSING FOR SPRING LATCH LOCK

- 1) Inserire il blocco scrocco (**600**) sul lato superiore dell' anta
far scorrere il cavetto all'interno della fresata facendolo
uscire dalla sede del pulsante sottostante.
- 1) Insert the spring latch lock (**600**) on the top side of the door
let the cable slid within the milled area
having it exit from the underlying button housing.
- 2) Fissare lo scrocco mediante le viti (**630**).
- 2) Fasten the spring latch using the screws (**630**).

Rif.	Q.tà	Elenco parti	Parts list
600	1	Blocco Scrocco Push&Go	Push&Go Spring Latch Lock
630	2	Vite per legno TSP+ Ø3x25	For wood screws TSP+ Ø3x25

MONTAGGIO PULSANTE ASSEMBLY OF THE BUTTON

3) Inserire il cavetto nel foro (**pos. 1** o **pos. 2** vedi pag. 5-6) posto sul retro del pulsante (**610**) e portarlo sul fronte attraverso la feritoia.

3) Insert the cable in the hole (**pos. 1** or **pos. 2** see page 5-6) on the back of the button (**610**) and bring it to the front through the slit.

4) Prima di fissare il cavetto far uscire completamente lo scrocco magnetico del blocco superiore (**600**) mediante un oggetto metallico, mettere in tensione il cavetto prestando attenzione a non abbassare lo scrocco, quindi fissare il cavetto con la chiave (**640**) in dotazione tramite il foro posto al centro del pulsante.

4) Before attaching the cable, let out completely the upper magnetic spring latch lock (**600**) by means of a metallic object, tension the cable being careful not to lower the spring latch, and then secure the cable with the allen wrench (**640**) supplied through the hole located in the centre of the button.

5) Verificare il corretto funzionamento del sistema e successivamente tagliare l'eccedenza del cavetto lasciandolo sporgere di 2/3 cm, reintrodurre la sporgenza all'interno dell'anta, applicare il frontalino (**620**).

5) Check the correct operation of the system and then cut the excess cable letting it protrude 2/3 cm, reintroduce the protrusion on the inside of the door, apply the front plate (**620**).

6) Per togliere il frontalino (**620**), premere il pulsante ed inserire la punta di un cacciavite piano nell'apposita sede.

6) To remove the bezel (**620**), press the button and insert the tip of a flat screwdriver in the specific slot.

Rif.	Q.tà	Elenco parti	Parts list
600	1	Blocco Scrocco Push&Go	Push&Go Spring Latch Lock
610	1	Pulsante Push&Go	Push&Go Button
620	1	Frontalino	Front plate
630	4	Viti per legno TSP+ Ø3x25	For wood screws TSP+ Ø3x25
640	1	Chiave da 2 mm	2 mm allen wrench

SPECIFICHE PIASTRA INCONTRO MAGNETICO
DETAILS MAGNETIC STRIKER PLATE

Per utilizzo su porte a doppia anta con sistemi Ergon Living.
For use with double door leaves with Ergon Living system.

Rif.	Q.tà	Elenco parti	Parts list
223	1	Vite TSPEI M5x12	Screw TSPEI M5x12
253	1	Inserto di fissaggio piastra	Plate fixing insert
393	1	Piastra incontro magnetica	Magnetic striker plate

Per la gestione dei binari e profili copribinario vedi manuali tecnici Ergon Living.
For track and track cover profile see Ergon Living technical manuals.
