ATTENZIONE: nelle versioni “cilindro” della serratura, si raccomanda di utilizzare cilindri con camma DIN 30° e di installarli, come da immagine, con la camma rivolta verso la parte anteriore della serratura.

ATTENTION: in “cylinder” versions locks, it is recommended to use cylinders with cam DIN 30° and to install them, as per image, with lever in forefront position.

CONTROPIASTRE STRIKING PLATES

ISTRUZIONI PER L'USO / INSTRUCTIONS FOR USE

G500 - G500T

ATTENZIONE
 È fondamentale utilizzare la dima rossa (fase 2) inclusa nella confezione per la posa ottimale, individuando con precisione il punto di foratura per il pozzetto dell'incontro.
Non sbattere violentemente la porta quando si esegue la fase 3 onde non danneggiare lo stipite, la porta o la serratura!
 I passaggi sopradescritti si riferiscono all'utilizzo delle contropiastre G572 e G573.

WARNING
 For the best installation, it is highly recommended to use the red jig (step 2) included in the package; it allows to identify the drilling point for the pocket of the striking plate.
Do not knock the door too hard when performing step 3 in order to avoid any damage to the frame, to the door or to the lock!
 The steps refer to the use of G572 and G573 striking plates.

INSTALLAZIONE DEL KIT / KIT INSTALLATION

ATTENZIONE
 Per la riuscita del montaggio montare contemporaneamente il pomolo e la vite d'emergenza allineati in verticale o in orizzontale!
WARNING
 For the successful assembly please mount both the knob and the emergency button aligned in horizontal or vertical position!

SMONTAGGIO / REMOVAL

EASY
